

What to Expect if You Participate

- In order to participate in this research study, participants will provide written informed consent before proceeding with any research procedures.
- During the Screening period of up to 45 days, you will be asked to come in for two screening visits and one brain imaging scan. If you meet all eligibility criteria at each screening visit, you will be asked to come in for the next visit.
- After Screening we will know if you are a good match for this study, and if you are, we will ask you to come to the clinic for a total of 12 study visits and complete two telephone calls over the next 27 months.
- You will be asked to take the study drug as instructed for 24 months (2 years).
- You will also be asked to stay in contact with your study team and tell them if you have any updates to your health status during this time.
